Career Objective

As a BE Electrical graduate passionate about teaching, my career objective is to engage and empower students in school environment, fostering their intellectual curiosity and facilitating their holistic growth and development.

Internships and Experience

1. Study Mate: Science Teacher 2020-2022.

- Delivered engaging and interactive Science lessons to middle and high school students.
- Conducted regular assessments to evaluate academic progress and understanding.
- Maintained a positive and disciplined classroom environment conducive to learning.

2. Velox Automation PVT. LTD.: Intern January'24-April'24.

- During the internship at Velox Automation, comprehensive learning about automation and TIA Portal was undertaken. Various tasks were assigned and resolved using the TIA Portal, leading to a thorough understanding of the software.

3. Aurro Electricals: Design and Estimation Engineer July'24-January'26.

- Prepared bills of materials (BOMs) for various inquiries, ensuring accuracy in project requirements.
- Created general arrangement (GA) drawings using AutoCAD to support design execution.
- Drafted purchase orders (POs) to streamline procurement processes.

Extracurricular Activities

- Spearheaded the anchoring and coordination efforts for multiple college fests and events, showcasing strong communication skills and an ability to engage diverse audiences.
- Collaborated with event teams to ensure seamless execution, demonstrating effective organizational and leadership capabilities.
