Summary

In this dual role, As a Trainee Engineer, I assist in project development and problem-solving. Concurrently, as an Educational Counselor, I offer support to students in academic, personal, and career matters. This unique combination allows me to apply technical skills in engineering while fostering student success and well-being within the educational institution.

Skills

Communication skills, Computer applications (MS Office), 1-2-1 counselling, Leadership, Quick learning

Work Experience

Counsellor in Education Institution

Narayana Coaching Institute

Surat 16/12/2024 – 31/06/2025

In Narayana Institute I worked as a counsellor, As an education counsellor I help students to choose the right course or coaching program based on their interests, academic background, strengths, and career goals. I also provide information about entrance exams, competitive exams, and career opportunities. I also helps parents through the admission process, explain fee structures, course details, and institutional policies, and help with documentation.

ALLEN Career Institute

Surat 22/03/2023 – 22/10/2024

As an Education Institution Counselor, I provide personalized support to students, addressing academic, personal, and social challenges. My role involves offering guidance on course selection, career pathways, and addressing emotional well-being concerns. Through individual sessions and group activities, I foster a supportive environment that promotes student growth and well-being within the

educational setting.

Trainee Engineer

ArcelorMittal Nippon Steel India Ltd

Surat 01/11/2021 – 09/09/2022

As a Steel Chemistry Analyst, my primary responsibility is to produce daily steel chemistry reports for technical calls within a steel manufacturing or processing facility. This role requires meticulous attention to detail and a deep understanding of metallurgical principles and chemical processes involved in steel production. As a trainee engineer I Completed tasks efficiently and timely, as instructed by engineering managers.
