Education

- **D Y Patil International University — B.Tech in Computer Science (Data Science)** *Pune, Maharashtra | CGPA: 8.91 / 10*
- **Swaminarayan HV Academy — Higher Secondary** *Surat, Gujarat | Score: 80.40%*
- **Ryan international school — Secondary** *Surat, Gujarat | Score: 87%*

Experience

- **Kalyani government engineering college — Research Project Intern** *Kalyani, West Bengal | Jan 2024 – Jan 2025*
Developed MATLAB-based image analysis program to estimate sheep weight using visual features. Applied machine learning for image processing and achieved <5% error in weight prediction.
- **Supriya Enterprises — Frontend Developer Intern** *Pune, Maharashtra | May 2022 – July 2022*
Designed and developed company website using HTML, CSS, Bootstrap, WordPress, and Python. Ensured responsiveness and optimized layout for performance.
- **Bhagwan Mahavir University — Lecturer** *Surat, Gujarat | Aug 2025 - present*
- Delivering practical, industry-focused lectures to Computer Science students and developing course materials and assessments. Mentoring students in projects and research while using modern teaching tools and supporting curriculum development.

Projects

- **Hand Gesture to Speech/Text Conversion** *D Y Patil International University, 2024*
Built a system for speech-impaired individuals converting hand gestures to text and voice. Published in the journal “Future Proofing Business: Embracing Talent, Innovation, and Disruptive Technologies.”
[Open journal](#) | [GitHub](#) | [Certificate](#)
- **Dogs breed classification** *Kalyani govt engineering college, 2024*
Achieved 96% accuracy using TensorFlow (MobileNetV2, ResNet50V2), data augmentation, and training optimisations.
[GitHub](#)
- **Ethical Artificial Intelligence in Autonomous Transport** *D Y Patil International University, 2024*
Researched challenges in AI ethics for autonomous vehicles which was also published in IJNRD.
[Certificate](#)
- **IOT based Accidental Detection System ADS using Raspberry Pi** *Published in IEEE, 2023*
Created an intelligent notification system that detects vehicle crashes and alerts police/hospitals. Emphasis on real-time alert accuracy and low-latency transmission.
[Link](#)
- **IoT-based Accidental Detection System** *Smart India Hackathon, 2022*
Built a real-time Raspberry Pi-based alert system; selected for Smart India Hackathon Level 2.
[Certificate](#)

Certification

Cloud computing (NPTEL): Studied cloud models, virtualisation, and deployment basics.

MATLAB onramp (MATLAB): Learned MATLAB basics through hands-on modules.

MATLAB fundamentals (MATLAB): Covered core MATLAB functions and data handling.

Intellectual property, IP panorama (WIPO): Understood fundamentals of intellectual property rights.

[Certificate Folder](#)

Technical Skills

Python	C++	C	HTML	MySQL
VS Code	CSS	Jupyter	Bootstrap	Wordpress
Data visualization	kubernetes	Tensorflow	PyTorch	Keras
MLOps	Git	MS Office	LLM	Machine Learning Algorithms
